## PROFILE SUMMARY

I am a young and motivated Frontend Developer with around two years of practical experience creating modern and responsive web interfaces using HTML, CSS, JavaScript and React. I also have experience working with C#, and I am currently learning Python to strengthen my backend and automation skills.

I enjoy discovering new technologies, building personal projects

and improving my code step by step. I speak French (C1) and English (B1), which helps me communicate with people internationally. In the future, I plan to learn Cyber Security as an additional field and develop myself in ethical hacking and system protection.
